

Treadmill Belts

Ammeraal Beltech is a leading manufacturer of process and conveyor belting with an established reputation for developing innovative solutions for belting applications.

Working closely with treadmill OEMs, Ammeraal Beltech has developed a range of Low Energy treadmill belts giving superior performance on treadmills whether in clubs, hotels or medical centers.

Ammeraal Beltech also supplies traditional treadmill belts for home fitness and special belts with hydrolisis and low temperature resistant top cover material for aqua-gym treadmills.

Main features

- Stable belt construction
- Permanent antistatic
- Resistant to abrasion
- Silent running and excellent grip
- Smooth tracking properties
- Less heat build-up
- Low power consumption
- The Low Energy belts with heat resistant fabric
- need no lubrication; maintenance free

Benefits

- Less energy consumption
- Smooth and economical operation
- Operational safety
- No pollution build-up
- Long service life

Ammeraal Beltech low energy treadmill belt range

- » Stable belt construction permanently antistatic
- » Low decibel noise construction
- » Smooth tracking properties
- » Surface profile for good grip on various shoe sole types

**Operational
Safety**

- » Very low friction underside reduces surface resistance
- » Less heat build-up
- » Smooth, economical operation

**less Energy
consumption**

- » Lubrication not necessary, resulting in less maintenance
- » Resistant to abrasion
